Hello Westheights Community!

The board is writing today with an ask: that you share your input in a short survey that will help us determine what's next for us as a church community.

As many of you know, the board has been working through several large topics over the past few years. From incorporation to potential building projects to what it looks like for Westheights to be a welcoming space, we feel blessed to be in a position of great opportunity as a church.

One thing that has become clear through this work is the need to weigh decisions against a broader vision, and ask how these things are helping us be the kind of church we feel called to be within our community.

We have drafted four proposed "pillars" that could help define our vision for this next season. These are not finalized statements, but rather something to start the conversation and gather your feedback. We'd like to ask you to take 10-15 minutes to complete this survey and share your feedback on each of the proposed pillars. This feedback will be incredibly beneficial as we discern the next steps for our church community.

Please complete this survey by November 1, 2026. Later this fall, we will share the findings and related next steps. Thank you for participating in this way!
